## The 3 Amigos ride again!

## Hello Everyone

As you know from the last newsletter we went on a 30 day vacation at the beginning of July. It was a 3900 mile round trip from California to Oregon to Washington State and back to California. For all the stops we made and the miles we traveled 30 days was not even close to being long enough to truly have the quality of time with each individual. With that said we still had a heartwarming, fun time with everyone that we encountered. To start with we were blessed with a beautiful new grandson, Conner, by our daughter, Ashlee and her awesome man, Daniel on July 9th. Our son, Richard, married on July 23rd to a beautiful lady, Megan, who brings a wonderful son, Brandon, whom we are honored to call our Grandson.

In between, we attended a family reunion which consisted of around 36 family and friends that we had not seen in a while as well as reuniting with more family and friends along the way and meeting new ones.

We traveled with our RV and our 3 furry kids, Tucker, Gidgyt and Tinkerbell. Tucker and Gidgyt (our dogs) were just like 2 teenagers arguing in the back seat, when one touched the other the attitude with bickering began. They were very restless on the days we drove the longest, although very excited to check out our new stops. Tinkerbell, our cat, traveled with us when she was younger and we really saw the difference between now and then. She will do well on longer stays and not as many miles.

It was so good to see everyone and just as good to be home. We hope you have had heartfelt experiences this summer as well and that it continues to grow and nurture!!!

*Much Love to You and Yours*

In previous writings we mentioned that your political houses were stepping up their agendas for the upcoming elections and that many masquerades will entice devotees and advocates on all sides of the isle. The media is assisting in this endeavor as noted in the market's revealing the panic of the masses. The lack of Integrity continues to grow within the political rollercoaster of perceived power, and civil unrest will proclaim territorial ownership.

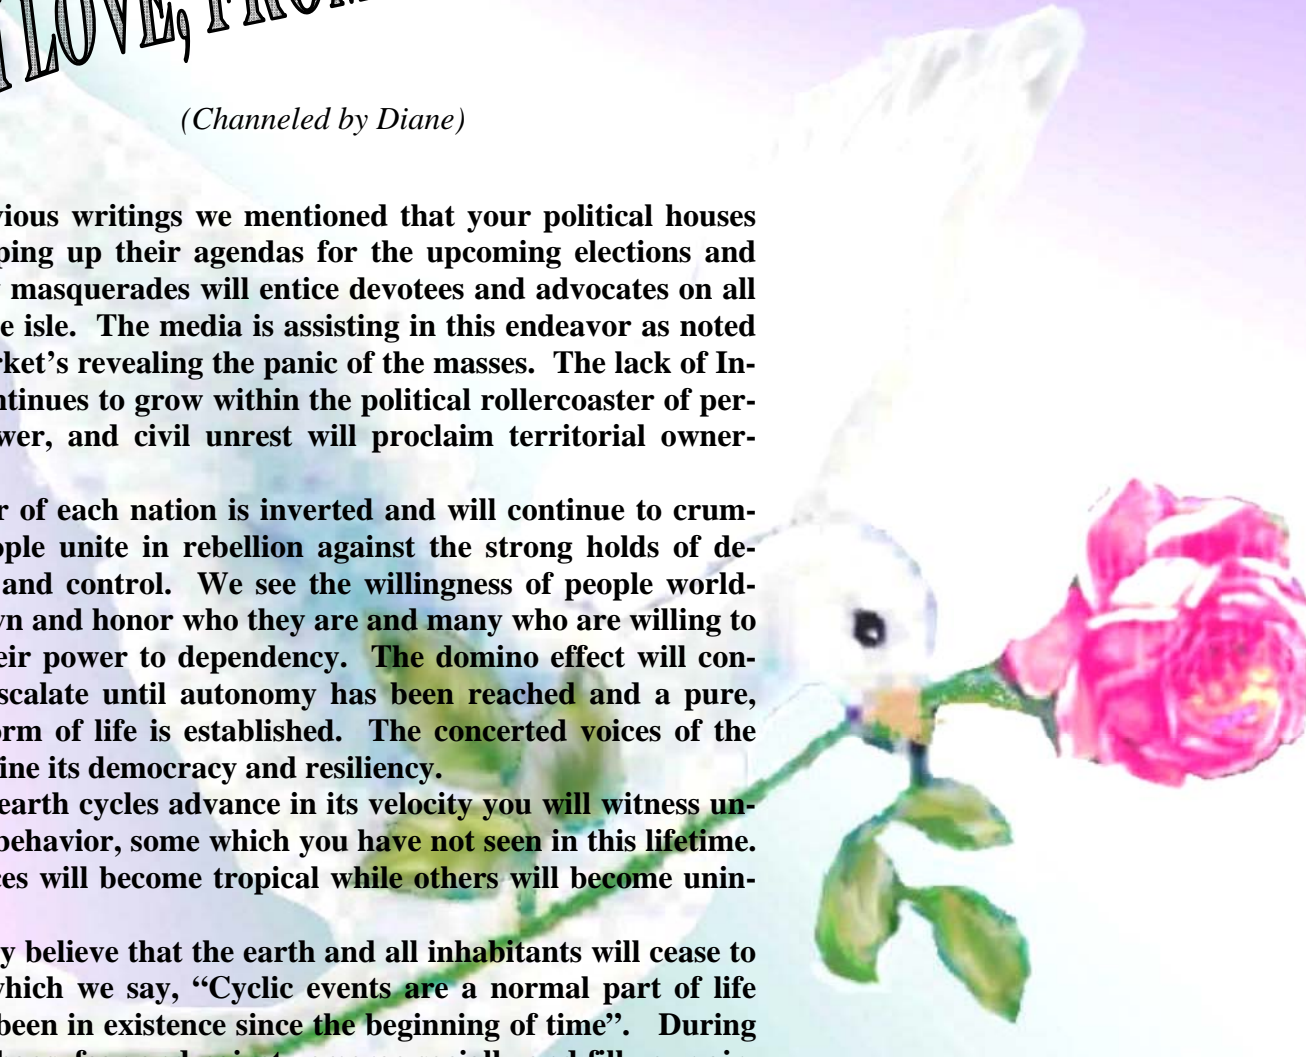

The power of each nation is inverted and will continue to crumble as people unite in rebellion against the strong holds of dependency and control. We see the willingness of people worldwide to own and honor who they are and many who are willing to release their power to dependency. The domino effect will continue to escalate until autonomy has been reached and a pure, simpler form of life is established. The concerted voices of the people define its democracy and resiliency.

As the earth cycles advance in its velocity you will witness unorthodox behavior, some which you have not seen in this lifetime. Some places will become tropical while others will become uninhabitable.

Many truly believe that the earth and all inhabitants will cease to exist, to which we say, "Cyclic events are a normal part of life and have been in existence since the beginning of time". During states of chaos, fear and naivety emerge socially and fill your airways. Discernment is crucial to abstain from societal hysteria.

As the earth continues her ascent your bodies require awareness of its needs for optimal health. Your perceptions along with emotions, as well as what you consume play a key role in immunity strength. Cells within the body renew consistently and when the bodies flight or fight response kicks in with unending duration the cells begin its descent; closing down which triggers the immune system to run continuously until it turns on itself to survive. Give your body and perception a sense of balance by enjoying the simplicity of life.
